### AIRMUNITIONS SPECIFICATIONS

- 1. One copy of FMS shipping documents shall be furnished to OO-ALC/WMR Attn: Linda Skeen by mail to 6043 Elm Lane, Hill AFB, UT 84056-5819 or FAX to (801) 777-1089, and shall include FMS Case and requisition numbers.
- 2. DODIC Number is: ZY57
- 3. Ammunition lot numbering shall be accomplished. Reference MIL-STD-1168B for guidance.
- 4. Ammunition Data Cards shall be filled out and state quantity/serial number of lot acceptance test units in the remarks block (DI-MISC-80043A).
- 5. Serial numbers are required for each item.
- 6. Items are to be marked using accepted practices for marking of explosive device (reference MIL-STD-130K for guidance). Minimum item marking shall include Manufacturer Part Number, Lot Number (reference MIL-STD-1168B for guidance), Serial Number, and Date of Manufacture. Item markings shall make no reference to service life or installation procedures.
- 7. The vendor shall serialize items sequentially for this (each) part number. Do not repeat those numbers used for previous lots until highest possible serial number has been reached. Serial numbers shall be a minimum of 4 digits.
- 8. Shipping activities shall prepare a Report of Shipment (REPSHIP)
- 9. Hazard Class/division: 1.4
- 10. Storage Compatibility Group: S
- 11. DOT Marking: Cartridges for Weapons, Blank
- 12. DOT Class: 1.4S
- 13. DOT Label: Explosives, 1.4S
- 14. UN Serial No: 0014
- 15. UN Proper Shipping Name: Cartridges for Weapons, Blank.
- 16. All configuration actions shall be in accordance with Industry Standard EIA-649.

- 17. The ACO, in accordance with Industry Standard EIA-649, shall have Class II approval authority.
- 18. Lot Acceptance Test requirements are: IAW latest government approved ATP.
- 19. The contractor shall furnish a Test/Inspection Report, Lot Acceptance Test, (DI-NDTI-80809B).
- 20. LOT ACCEPTANCE TEST: In the event of an end item firing failure, the contractor shall notify the responsible Air Force Engineering Organization, OO-ALC/WMJ by FAX within 24 hours. FAX is (801) 777-9484.
- 21. Proposed corrective actions and recommendations shall be furnished in a Failure Analysis and Corrective Action Report (DI-RELI-81315).
- 22. The age of explosive components (i.e. manufactured cartridges, cast propellant grains, detonating cord etc) except bulk Energetic Material and primers used in the manufacture of these items will not exceed 12 months. Primers shall have been certified/re-certified within the past 12 months unless they are Navy certified and have a 2-year certification. The acceptability of bulk energetic material used in the manufacture of this item will be demonstrated by lot Acceptance Test Data. Non-explosive ingredients such as binders and oxidizers which do not degrade with age, are excluded from this 12 month requirement. The government may waive this requirement on a case-by-case basis (when advantageous to the government) provided the contractor provides all details of the reason for the waiver and the age and lot numbers of the subject components. The waiver (if granted) may be subject to conditions such as sensitivity testing of dehumidification.
- 23. If Hexanitrostilbene (HNS) explosive material is used in the manufacture of this item, the HNS shall meet the requirements of Government Document WS5003F (or latest revision), Purchase Description of HNS Explosive; and maximum particle size shall not exceed 250 microns.

## AIRMUNITIONS SPECIFICATIONS (CONT)

REPORT OF SHIPMENT (REPSHIP): Contractor will be responsible to transmit REPSHIP's to the appropriate consignee or CONUS water or air terminal transportation officer(T.O.) and the following service accountable supply activity: OOALC HILL AFB UT//WMR//. Such notice will be transmitted by electrical means, fax 801-777-1089, or email: <a href="mailto:jweeks@armament.hill.afmil">jweeks@armament.hill.afmil</a> or <a href="mailto:jeff.weeks@hill.af.mil">jeff.weeks@hill.af.mil</a> To be received 24 hours prior to the arrival of the shipment. A telephone REPSHIP to appropriate T.O. will be made when necessary to ensure receipt in advance of shipment arrival and later confirmed by message to all addresses.

A copy of the bill of lading does not meet the requirements of a REPSHIP for ammunition, explosives and inert components. A REPSHIP will include the following data IAW DOD 4500.32R and the DOD 4500.9-R PART 2(DTR).

FROM: (Shipping Activity)

TO: (Domestic Customer or Transshipping Activity Clearance Authority(Ocean) or Customer Serive Branch(CSB) (AIR)

INFO: OO-ALC HILL AFB UT//WMR//

SUBJECT: REPSHIP

Conveyance Number.

- a. Carrier and routing, bill of lading number, NEW.
- b. Seal number(s) and any other security devices applied, such as locks, wire twists, etc.
- c. Type of Transportation Protective Service (TPS), i.e., Signature Tally (ST), Constant Surveillance Service(CS), Rail Armed Guard Surveillance Service(RG), NONE, etc., and TX-GS service number, when applicable.
- d. Shipment date written as a 3-digit day of the year.
- e. ETA written as a 3-digit day of the year.
- f. For surface shipments, ETR number and vessel name and/or voyage number. For air shipments, enter applicable air release number or N/A.
  - (1) TCN (suffix).
  - (2) NSN and DODIC
  - (3) Dimensions of unitized loads (length, width, height), in inches
  - (4) Total rounds, total pieces, total weight, total cube.
  - (5) Lot number and NEW. For more than one lot, furnish the lot number, round count, pieces, weight, cube, and NEW for each lot.
  - (6) Project code, if applicable.
  - (7) Security classification (e.g., sensitive—Category II, SECRET, NONE, ETC.) (Signature Block)

WMC-03-166

## INSTRUCTIONS FOR COMPLETING DD 1 JAM 1423

(See DoD 5010.12-M for detailed instructions.)

## FOR GOVERNMENT PERSONNEL

- Item A. Self-explanatory.
- Item B. Self-explanatory.
- Item C. Mark (X) appropriate category: TDP Technical Data Package; TM Technical Manual; Other other category of data, such as "Provisioning," "Configuration Management," etc.
- Item D. Enter name of system/item being acquired that data will support.
- Item E. Self-explanatory (to be filled in after contract award).
- Item F. Self-explanatory (to be filled in after contract award).
- Item G. Signature of preparer of CDRL.
- Item H. Date CDRL was prepared.
- Item I. Signature of CDRL approval authority.
- Item J. Date CDRL was approved.
- Item 1. See DoD FAR Supplement Subpart 4.71 for proper numbering.
- Item 2. Enter title as it appears on data acquisition document cited in Item 4.
- Item 3. Enter subtitle of data item for further definition of data item (optional entry).
- Item 4. Enter Data Item Description (DID) number, military specification number, or military standard number listed in DoD 5010.12-L (AMSDL), or one-time DID number, that defines data content and format requirements.
- Item 5. Enter reference to tasking in contract that generates requirement for the data item (e.g., Statement of Work paragraph number).
- Item 6. Enter technical office responsible for ensuring adequacy of the data item.
- Item 7. Specify requirement for inspection/acceptance of the data item by the Government.
- Item 8. Specify requirement for approval of a draft before preparation of the final data item.
- Item 9. For technical data, specify requirement for contractor to mark the appropriate distribution statement on the data (ref. DoDD 5230.24).
- Item 10. Specify number of times data items are to be delivered.
- Item 11. Specify as-of date of data item, when applicable.
- Item 12. Specify when first submittal is required.
- Item 13. Specify when subsequent submittals are required, when applicable.
- Item 14. Enter addressees and number of draft/final copies to be delivered to each addressee. Explain reproducible copies in Item 16.
- Item 15. Enter total number of draft/final copies to be delivered.
- Item 16. Use for additional/clarifying information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14.; Desired medium for delivery of the data item.

### FOR THE CONTRACTOR

- Item 17. Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.
- a. Group I. Definition Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

Item 18. For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirement to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.

PREVIOUS EDITION MAY BE USED.

# SOURCE QUALIFICATION STATEMENT (10 USC SECTION 2319)

SECTION A: ITEM IDENTIFICATION

Stock Number (NSN): 1377-01-084-9358ES

Specification: 6010600

Nomenclature: Booster Chrage

Application: Parachute Actuator Assembly

SECTION C: QUALIFICATION REQUIREMENTS THAT MUST BE SATISFIED TO BECOME A QUALIFIED SOURCE AND QUALIFICATION WAIVER REQUIREMENTS.

- 1. <u>Prequalification Notice.</u> The offeror shall notify OO-ALC/BC or, if responding to a solicitation, the contracting officer in OO-ALC/WMK of intent to qualify as a source for this item.
- 2. <u>Test and Inspection Capability.</u> The offeror shall certify to the design control activity (OO-ALC/WMJ), the availability of the required test, inspection, and diagnostic facilities and equipment, or provisions for their acquisition or utilization from another source. When the offeror proposed to acquire these items, the offeror shall provide documented equipment orders or similar documentation for government inspection.
- 3. <u>Data Verification.</u> A qualification test procedure per DI-NDTI-80604 and a qualification test report per DI-NDTI-80604 shall be provided through the contracting office to USAF OO-ALC/WMJ. Hazard classification tests per TO 11A-1-47 paragraph 5-3 and a report on Hazard Classification tests per DI-SAFT-81299A must be performed in conjunction with the qualification efforts. Qualification must be accomplished IAW 6010600.
- 4. Process Verification. The offeror shall identify sources for materials and standards for internally used processes. The offeror shall further define/provide written procedures for the utilization of any special test or inspection facilities and/or equipment. This documentation shall also include a diagnostic procedure showing the process the Booster Chrage being produced would undergo. The production process shall show how the offeror shall test, inspect, diagnose, produce and perform a final functional checkout. Development of special test procedures not available from the government is required. The offeror shall develop those procedures for review and approval by the design control activity. Due to diminishing manufacturing sources (DMS), many of the piece-parts listed in the design may no longer be available. The contractor must be capable of locating alternative components to minimize any DMS problems.
- 5. <u>Test and Evaluation or Verification</u>. The offeror shall submit to the design control activity an explanation of how they will certify that the test methods and production procedures meet the specifications for the **Booster Chrage**. The government retains the option to inspect the offeror's production and testing facilities. To allow accomplishing this, the offeror's facilities shall be made available to government inspection during the qualification effort upon ten days written notice of intent to inspect.
- 6. Qualification Article. Upon satisfactory compliance with the provisions of paragraphs 1 to 5 above, the offeror shall provide a non-serviceable Booster Chrage for performance of the production capability demonstration. This unit shall be produced at the offeror's expense and returned to the government for testing and verification of serviceability. The returned unit shall be evaluated by the cognizant design control activity and shall demonstrate full operational serviceability.

Estimated likely costs for government unique testing and evaluation, which will be incurred by the potential offeror to become qualified: \$0.00

- 7. Sensitive Military Technology. Not applicable.
- 8. Testing and Production Evaluation. The offeror shall be required to submit a complete test report for the production capability demonstration verifying compliance with all performance, environmental, mechanical, and quality assurance requirements identified by 6010600. In addition the test report shall contain detailed documentation describing the testing procedures during production. This data shall describe in detail the point(s) in the production process that testing occurred, and if failures were noted, the corrective action taken and the results of the retest. The government retains the option to inspect the production and testing process, including on-site witnessing of any or all production and testing activities. The offeror will provide notification to the government of testing and evaluation 30 days in advance so that the government can witness, if needed, coordinate needed activities, support, etc.

# SOURCE QUALIFICATION STATEMENT (10 USC SECTION 2319)

Stock Number (NSN): 1377-01-084-9358ES

Specification: 6010600

Nomenclature: Booster Chrage

Application: Parachute Actuator Assembly

- 9. <u>Time Completion Estimate</u>. It is the estimate of the design control activity that completion of this qualification effort should require 360 days. This is based on complexity of the **Booster Chrage** and other factors. This is not a deadline but a notification to a potential offeror of the time we believe will be required. Events that occur during the qualification process may cause this time requirement to increase or perhaps decrease, depending on individual circumstances.
- 10. <u>Time Limitation</u>. An offeror may not be denied the opportunity to submit and have considered, an offer for a contract if the offeror can demonstrate to the satisfaction of the contracting officer and cognizant engineering activity that the offeror (or its product) meets these standards for qualification or can meet them before the date specified for award of the contract. The award will not be delayed to provide the contractor with an opportunity to demonstrate its ability to meet the standard specified in this source qualification statement.
- 11. Evaluation of Proposals Not Previously Qualified. The offeror must be fully qualified in order to be eligible for a contract award. Therefore, the offeror must fulfill all of the requirements stated, in writing, in the source qualification statement before the date specified for award of the contract. The government reserves the right to award a contract at the time specified for award, to a qualified source even though other sources may not have finished qualifying.
- 12. <u>Waiver</u>. Any offeror who has had previous experience in the production of the **Booster Chrage** or other similar items may apply to the design control activity for a waiver of all or part of the above requirements. A waiver will be granted only if the design control activity can establish the qualification of the offeror from previous knowledge/interface or from written inputs from the offeror.
- 13. <u>Approval.</u> Once the qualification requirements are met, the offeror will be listed as an approved source for this item. Approval, however, does not guarantee subsequent contract award.

# SOURCE QUALIFICATION STATEMENT (10 USC SECTION 2319)

Stock Number (NSN): 1377-01-084-9358ES

Specification: 6010600

Nomenclature: Booster Chrage

Application: Parachute Actuator Assembly
